PHILODENDRON

Grade A Cord.

Grade A plants consist of all leaves 2½ inches or more across leaf. This grade is in two classes. 2-5 and 3-5 leaves. The 2-5 seems more popular due to the low percentage of 2-leaf plants per M and cheaper in price. Especially popular in combinations and 3 per pot displays. The 3-5 leaves are almost essential in singles.

The Grade B plants are 2½ in. across leaf or less. These smaller plants are being used in small dish gardens or 3-4 in 2½" or 2¼" pots. Our 3 per 2¼" are well shaped and vigorous, used where less handling and faster turnover is desired.

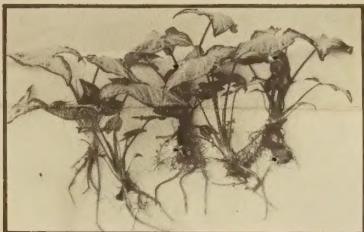

Grade B and 3
per 2¼ in. Cord.

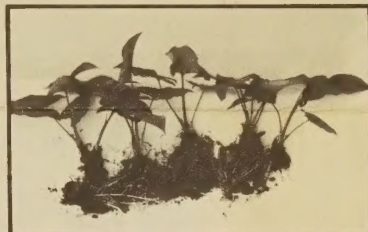

Quantity	Prices		Total
	100	1000	
3-5 Grade A leaves	\$.05½	\$.05	
2-5 Grade A leaves	.05	.04½	
3-5 Grade B leaves	.04	.03½	
Grade B, 3 per 2¼" plastic pots	.16	.15	

Green Gold

Imperial White

Emerald Gem

GREEN GOLD — 3-5 highly variegated leaves, 4-6" in height. Transplanted to make a bushy, well-shaped plant. Presently our No. 1 Nephthytis in sales. IMPERIAL WHITE — New. In a class all to its own. Variegation distinct and brilliant. Slow to vine. This is the plant many growers believe will soon be the No. 1 Nephthytis in demand. EMERALD GEM — 3-5 wide leaves. 4-6" in height. Dark green and well shaped. Transplanted and well spaced in finishing beds in greenhouse to hold down spindly stems and foliage.

Quantity	Prices		Total
